Growing Stock List

Plants shown may be available sometime in the Summer/Autumn 2025.

Please Note:

Any questions or to place a forward order please contact us via email or phone.

9cm peat free pots, see bottom of list

Plant Qty is a rough figure, our plug plants are 3.50cm & 4cm plugs.

Varieties shown below will only become available on the website when rooted and saleable.

Certain varieties can be in forwards orders and sell out not making it onto the website.

All forward order's will be subject to any price increases.

Some of our growing stock is now grown in peat free compost.

A few plant varieties take longer than others to become fully rooted.

Order requirements: Minimum spend of £30 ex-vat not including the handling & delivery charge.

All orders of 720 or more plants are free delivery except to certain remote UK postcode areas.

See the websites shipping and delivery for charges.

If you are placing an order or have placed a forward order from this list, your order will only be processed when **All** the plants in your order are rooted and ready this will depend on the plant variety as some take longer to root than others.

The weather will effect the plants as we do not grow with artificial heat or light.

Some plant species can take a while to fully root and we may incur some losses during the winter.

if a plant variety has any losses we will put what stock is available into your forward order.

We thank you in advance for your patience and understanding.

If you wish to **cancel** an order at anytime please contact us as soon as possible.
